Use the chart above to find the bike size that's best for you. If you fall across two sizes or have questions about the bike size that will best suit you, see the expert fit technicians at your local Trek retailer or contact our customer service team via email, phone, or live chat.

The fit technicians at your local Trek retailer have the skills and training to help you determine the size and position, based on your build and ride style, that will enhance your riding experience.

A personal fitting with a Trek Precision Fit retailer will give you a tailor-made solution that will lead to countless hours of faster, more comfortable, more enjoyable riding.
